"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. COMMERCIAL INTELLIGENCE

FRIDAY EVENING, JUNE 11.

HEAVY rains on the nights of Saturday and Sunday last led to the general belief that the monsoon had fairly burst upon us, and that the shipping season of 1880 might be considered at an end. Since then, however, the weather has remained fair, and is not accountable for the dulness which prevails in our leading branches of trade. It is true that although operations in Cotton have been very small, there has been a brisk demand for Seeds to fulfil freight engagements, and prices for these have advanced considerably during the week, but Cotton is now all warehoused for the monsoon, and dealers having made their arrangements, are unwilling sellers at even present rates, which are considerably above the level of home quotations. Wheat is down to a comparatively low level here, and supplies are abundant, but advices from European markets are not very encouraging. Our Import trade generally shows no signs of improvement as yet, nor is it likely to do so, until influenced either by more favourable accounts from home, or by a satisfactory rain-fall here. Exchange has a downward tendency, and rates show an advance of about ½ per cent. on our last quotations. Money continues easy. Government Paper firm and advancing. Shares are rather easier, but the feeling is very general that we shall see considerable speculation during the monsoon. We are drawing to the close of an unusually prosperous season, which, although somewhat disappointing at the finish, opened upon us in every respect the reverse of its predecessor. After a most propitious monsoon, crop prospects were on all sides reported to be most favourable, and these reports have been fully borne out, not only as regards quantity but quality, as our Exports, with the exception of Rapeseed, testify by a marked increase on those of last year. The scarcity of steam tonnage in March and April confined shipments within a smaller compass than would have been the case, but recently the supply has been quite equal to the demand, although a plethora of tonnage and a drop in freights would no doubt largely increase shipments of Wheat, and during the monsoon months it is not unlikely that this may come about. The very heavy stocks of Cotton held over in Bombay—estimated at from 1,75,000 to 2,00,000 bales—necessarily means a considerable look-up of Capital, and this may confine speculations within a narrower limit than would otherwise have been the case; but that there is a strong speculative feeling current is evident from the attention that is being directed, to the New Loan, and the certainty, not only that it will be tendered for above par, but that it will probably be floated at about 2 per cent. premium, while the average rate of allotments of that of May last year was only Rs. 94½. It is true that that was at a time of commercial disaster and failures.

MONEY.—The last published return of the Bank of Bombay for the week ending on the 5th instant showed a decrease of about 20½ lacs in the Cash Balance against an increase of a like amount the previous week. The position of the bank is consequently almost identical with that of the week before last, and no changes in the rates of interest and discount were made by the Directors at their meeting on Wednesday last which consequently remain at 6 per cent. on Fixed Loans and 8 per cent. on discounts on Mercantile Bills. Now that we have come to the end of our Export season, a reduction on the rates now current may be looked for, as money in the bazaar continues very easy.

EXCHANGE.—The downward turn in rates to which we referred last week has been checked since last mail-day, but the transactions in Sterling continue on a moderate scale, although yesterday a considerable amount of Bank Paper changed hands on the basis of 1s. 8½d. for Telegraphic remittance for this month, and 1s. 8 5-32d. for July. Business for last mail closed at 1s. 8 1-32d. for demand Bank Bills, and 1s. 8 9-32d. for 3 months' sight Credits, and opened on Monday firm at an advance of fully 1-32 per rupee, mainly in response to Calcutta, whence rates were telegraphed firmer. On Tuesday the market was again strong, but there were very few mercantile bills offering; Bank Bills for forward delivery were, however, sold at a further advance of 1-32d., although Calcutta rates were unchanged. On Wednesday the market was in much the same position, but as usual there was not much doing, pending the allotment of Council Bills, which was at an average rate of 1s. 8½d. per rupee, the full amount of 36 lacs being taken in Calcutta. This rate was higher than was generally looked for, and increased animation was consequently the result yesterday when considerable purchases of Bank Paper were effected. To-day the market has been rather quieter, and the feeling of excitement which prevailed for a time yesterday has quite subsided. The advance has no doubt been mainly in connection with the advance in Government Paper and like it may be looked upon in great measure as speculative closing rates are:—Bank Bills on demand 1s. 8½d., 3 months' sight 1s. 8¼d., 4 months' sight 1s. 8 5-16d.; Credits, 3 months' sight 1s. 8 11-32d., 6 months' sight 1s 8 17 32d.; Documents, 3 months' sight 1s. 8¼d., 6 months' sight 1s. 8 9-16d. France, 3 months' sight 2 15¼.

BAR SILVER in Lo don has advanced to 52 5-16d. per oz. Reuter advises shipment of £60,000 by yesterday's P. and O. steamer via Southampton, to Bombay.

On Calcutta, rates are steady are Rs. 100 1-8 for demand and Rs. 99¾ for 60 days' sight Bills.

On China, the quotation for 60 days' sight Mercantile Bills is ca. 221 per 100 dollars. The latest quotation by wire from Hongkong for 4 months' sight Bank Bills on London is 3s. 9¼d. per dollar, and from Shanghai 5s. 2¼d. per tael.

GOVERNMENT SECURITIES.—The market throughout the week has been very firm, and rates have steadily advanced from Rs. 99 and Rs. 101¼ our quotations on last mail-day to Rs. 99½ for Fours and Rs. 102¼ for Fours and-a half, at which there are buyers but no sellers. The New Loan, tenders for which will be opened on Monday next, is naturally attracting much attention, and from Bom ay alone it is reported to have been subscribed for several times over at high rates. A fortnight ago it was thought that it might go at par, or slightly above par, but now the general belief is that tenders under Rs. 102 will have little chance of an allotment.

SHARES.—The market has been fairly steady during the week for Bank shares, which are unaltered in value. In Land Companies', too, the only change is a decline of Rs. 10 in Colabas. Spinning and Weaving Companies' shares after being very firm early in the week have since given way to a partial decline, but prices as a rule close slightly above those of last week. Alberts have advanced Rs. 5, Coorla Rs 15, Dhurrumsy Rs. 5, Jewras Balloo Rs. 15, Manockjee Petit Rs. 5, Morarjees Rs. 15, New Great Eastern Rs. 5, and Sholapore Rs. 10. In Press Companies, the changes during the week comprise an advance of Rs. 45 in Alberts of Kurrachee, Rs 5 in Berars, Rs. 25 in Fort, Rs. 20, in Sind and Rs. 5 in Mofussils. In Miscellaneous shares Bombay Saw Mills have advanced to Rs. 665, and Treacher and Co. to Rs. 705.

PIECE-GOODS.—Little, if any, change has taken place in this market during the past week. Accounts from Manchester have been somewhat more favourable, and this has stopped the downward movement; but the demand from up-country continues most limited, and in our local bazaar the sales since last mail day only am unt to about 800 packages, while from first hands the offtake is on a still smaller scale. Heavy rains on Saturday and Sunday last led to the general belief that the monsoon had burst, but the weather since then has been fair, and the rains were merely local and did not extend far into the interior. Until after the first steady downfall of rain, when some idea can be formed of the prospects of next year's crops, there is no likelihood of any material improvement in the demand for English Manufacturers. Stocks here, however, are light, and the shipments from home last month again show a considerable falling off both in Goods and Yarns, and should any encouragement offer, there is little doubt but that dealers will operate largely in anticipation of next season's requirements; prices are down to what may be considered a safe level in the meantime, and the recolle tion of the handsome profits made early in the past season will no doubt act as an incentive to enter into contracts for next.

GREY GOODS.—Shirtings continue in moderate request at about last quotations both for 39-inch Goods and also for the Wider Makes, but the total amount of business doing has again been small. Printers are dull of sale, but prices do not show any further decline. Madapollams are fairly steady, and are moving into consumption at last rates. T. Cloths are still very difficult of sale, and to realise, sellers have to accept rather lower prices for their stocks. Jaconets, Mulls, and Dhoties meet with a moderate enquiry at about the same as last week's rates. *Bleached Goods* are very dull, and with the exception of a small local demand, there is nothing doing. Rates are nominally unchanged. *Dyed* and *Printed* and *Turkey Red* Goods are only in small request, and stocks being comparatively liberal prices tend downwards. *Local* made Goods continue in fair demand.

TWIST.—The position of this market is virtually the same as for Grey Goods, and although the general feeling is that of dulness, it is dulness without depression, as the dealers show unmistakeable signs of being on the *qui vive* to buy, when any inducement offers, owing mainly to the fact that they are not overstocked, and that shipments from home are light. Besides, as with the Grey Goods dealers, the profits made early this season more than compensate them for the losses which they stand to make on their present holdings.

METALS.—*Copper* has been very difficult of sale this week, there are sellers of Braziers to arrive at Rs. 43-8 per cwt. without, however, having led to a single transaction since last mail-day. In the bazaar, rates are weak at Rs. 44-12 per cwt. for ready lots. *Yellow Metal* continues very quiet at Rs. 36 per cwt for Sheathing, and Rs. 35 per cwt. for Braziers. *Iron* is dull of sale at pr vious rates.

COALS.—The market is very steady on the spot, but the only cargoes reported sold to arrive are, notwithstanding a good enquiry, one of Cardiff, June-July sailing, via Cape, at Rs. 19 per ton, and one of Davison's West Hartley on the same terms. Holders are firm, and few cargoes are offering at present rates.

COTTON.—Although the advices from Liverpool this week have shown more activity than for some time back, spot prices for Surats have remained unchanged, and there has been no enquiry for arrivals. Under the circumstances there has been practically little to affect our markets, and the only description of Cotton for which there has been much enquiry has again been M. G. Broach, which is scarce and dealers are unable to deliver against contracts, and consequently the small quantities arriving command outside rates. Although rain fell early in the week, the weather has since been all that could be desired for shipping operations, and shipments consequently continue on a large scale, although for Export purchases do not, and for local consumption only a moderate amount of business is being done.

The *Receipts* from up-country continue on a free scale, and show the following comparisons :—

	1880.	1879.	1878.

The *Clearances for Sea* have now reached a total of 729 900 bales since the 1st January, against 480,117 in 1879 and 571,405 in 1878 those of the past week having been 53,624 bales. These, together with 45,000 bales now afloat in harbour, just complete our original estimate of clearances before the 30th June of 775,000 bales.

The following are to-day's quot tions for Full-pressed Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, without Commission :—

SEEDS.—Linseed has been in active enquiry during the week, and prices have advanced 3 to 4 annas per cwt., to-day's quotations being Rs. 6-8 to Rs. 6-9 per cwt. *Rapeseed* is also in good demand, the price for Yellow Guzerat having advanced to Rs. 6-4 per cwt. Of other descriptions the supplies are very limited, as Cawnpore Seed, both Yellow and Brown, has only come to this market in very small quantities this year, the crop has been small, and Calcutta rates offer more inducement than those ruling in this market.

WHEAT.—Supplies continue to come in freely, and shipments are going forward on a moderate scale, stocks here, however, are accumulating The price for Soft White is Rs. 32, and Hard Red Rs. 28 per candy

MESSRS. C. MARCKS and Co., of Bombay and Poona, have the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has APPOINTED them AGENTS for the sale of his CELEBRATED PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c.

Mr. Menist makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to attain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes; neither is there any economy in it, for in this climate it corrodes so quickly that it must often be renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. Menist's Non-pressure Eye-glasses have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure, or leaving any mark when removed.

His 12 lens "Duchesse" are all Achromatic, and as powerful as Field Glasses.

His Field, Marine and Opera Glasses may be used for hours without causing the eyes to ache.

Mr. Menist has left instruments with Messrs. C. Marcks and Co. for testing each eye separately, it frequently happening that they differ more or less in power. Messrs. C. Marcks and Co. for the convenience of clients who may not wish to purchase Mr. Menist's glasses have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames; and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

LATEST INTELLIGENCE.

ABDUL RAHMAN'S INTENTIONS.

(FROM OUR SPECIAL CORRESPONDENT.)

KABUL, JUNE 11.

A day or two before General Baker marched into Kabul he made a reconnaissance into Kohistan. Nearly as far as Baba Khushkar all seemed perfectly quiet. Some natives gave information that a large collection of men was at Charikar, but Abdul Rahman had sent to order them to keep quiet and await his arrival. Those men were of opinion at first that Abdul Rahman intended coming to Kabul as a friend to the British, but now think he intends to fight them. A large number of Safis from the district of Tagao have crossed the Panjsher river into Kohistan to help in forcing revenue from the people for the benefit of certain chiefs hostile to us. It was thought their presence would lead to serious disturbances, but our information to-day states they are returning. The general opinion in Kabul seems to be that there will be further risings among the tribesmen when the harvest is gathered in, but until then all will be quiet. Strict secrecy is still observed regarding Abdul Rahman, the authorities declining to give the slightest intelligence.

MOVEMENT OF TROOPS.

Several moves of troops have taken place consequent on the approaching departure of General Charles Gough's Brigade. A detachment of the 92nd Highlanders will garrison Butkhak, Siah Sung, and Bala Hissar, and two guns No. 2 Mountain Battery will proceed to Lataband, relieving the two guns of the Hazara Mountain Battery now there.

GENERAL GOUGH'S BRIGADE.

The brigade proceeding to Paghman on the 14th instant is constituted as follows:—General Charles Gough, commanding; Major Gerard, Central India Horse, Brigade Major; Major Kinloch, A. Q. M. G.; Lieutenant Becher, 9th Foot, Orderly Officer; 9th Regiment, 4th Goorkhas, 24th P. N. I., 3rd Bengal Cavalry, Hazara Mountain Battery, No. 2 Company Sappers and Miners. Twenty-one days' supplies are taken. The force will be absent about that period. It is not known at present whether it will proceed to other parts of Kohdaman besides Paghman. The heat is now increasing every day.

ATTEMPTED ASSASSINATION OF MAHOMED JAN.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, JUNE 11.

An attempt was made on the 8th upon the life of Mahomed Jan by one of his own men. The attempt failed. The culprit's nose and ears were cut off.

A man who has arrived at Kabul from Tashkurgan, via Charikar, reports that the troops in Turkestan are still discontented and out of hand. Owing to the excesses committed by the soldiery, several families have left Tashkurgan.

ABDUL RAHMAN'S LOANS.

Abdul Rahman having succeeded in getting a forced loan of one lakh, is now raising a second in the same way. A mint has been opened in his name, the local traders being forced to send silver to be coined.

Several military officers and officials of the late Governor have been killed.

...UBLIC WORKS DEPARTMENT.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, JUNE 11.

No practicable steps are likely to be taken in connection with the proposals of a certain departmental Public Works Committee referring to the reorganization of Pensions and Promotion Rules. The report of the Committee appears to have been an office note rather than a formal report to Government. It has never been under the consideration of Government as a final recommendation, and will now most likely drop altogether out of notice.

FINANCIAL STATEMENT BY MR. GLADSTONE.

LONDON, JUNE 11.

In the House of Commons last night, the Chancellor of the Exchequer, Mr. Gladstone, made a statement on the finances of the country and submitted proposals for increase of, and alterations in, taxation on some articles.

Mr. Gladstone said that he accepted the estimated expenditure of his predecessor, that the supplementary estimates had swallowed up the surplus, and that the state of the Indian finances necessitate the application thereto of any disposable surplus.

He proposes a reduction of the tax on foreign wines, and the repeal of the malt tax, replacing it by a tax on beer.

He proposes to increase the Income Tax one penny in the pound for one half year.

An increase is proposed in, and a readjustment of, the tax on spirit licenses.

Mr. Gladstone calculates the result will be a surplus of £380,000.

At the Appeal Court yesterday, the Chief Justice and Mr. Justice M. Melvill affirmed with costs a decree given by Mr. Justice Green in September 1879 in favour of Bomonjee Cursetjee Cama and others for Rs. 50,000, with interests and costs, against Dulputbhoy Bhugoobhoy and others. The circumstances of the case are peculiar. By an agreement of the 14th July 1878, the plaintiff Bomonjee agreed to buy from the defendants the commission to be received by them as secretaries, treasurers, and agents of the Albert Mills Company, Limited, or of a new company to be formed in succession thereto; and in part satisfaction of the consideration, paid them several sums of money aggregating Rs. 50,000. He also agreed to purchase from defendants 150 shares of the company at Rs. 1,200 per share, thereby undertaking to pay between Rs. 50,000 and Rs. 60,000 more for the shares than they were worth at the time. It was provided in the agreement that in case the scheme, under which the commission was to be transferred to the plaintiff, should not be carried out, all the monies paid by the plaintiff were to be repaid to him with interest at 9 per cent. per annum. The scheme eventually failed. The Albert Mills Company and a company called the Albert Manufacturing Company, which latter was formed with a view to effectuate the agreement, were forced into liquidation. The defendants' supposed power to transfer the agentship was called in question and met with opposition on the part of the shareholders, some of whom brought a suit against them in the High Court with the result that no further steps were taken by them to carry out their agreement with the plaintiff Bomonjee. The learned Chief Justice, in upholding the decision of Mr. Justice Green, remarked that the presentation of the petition to wind up the company amounted to a rescision of the agreement made with the plaintiff; and that it was an act inconsistent with the undertaking to assign over the agents' commission to him.

YESTERDAY on appeal presented by the London, Bombay and Mediterranean Bank from a decision of Mr. Justice Kemball was dismissed by the Chief Justice and Mr. Justice M. Melvill with costs. The suit had been brought by the Bank in the court below against Mooljee Canjee and the executors of Nanjee Morarjee to set aside a compromise made between the Bank and Mooljee Canjee on the 17th June 1869, and also for the payment by Mooljee to the plaintiffs of Rs. 12,000, the balance of a call on 200 shares, and to have the proceedings taken by him under Act 28 of 1865 set aside. In the words of Mr. Justice Kemball, Mooljee, the centre figure in this extraordinary case, had dabbled, it appears, to a considerable extent in banking operations during what is commonly called the "Share mania," and when the crash came he applied for the benefit of Act 28 of 1865. Proceedings were taken, trustees were appointed, and amongst other acts done, the claim of the plaintiffs, which amounted to Rs. 16,000, was compromised for Rs. 4,000. So matters remained, so far as the Bank's claim was concerned, until the 16th June 1879, when Mr. Stead, the agent, heard of certain frauds alleged to have been committed in connection with Mooljee's whitewashing under Act 28, which induced him to bring the suit. Mr. Justice Kemball considered that there was no necessity to bring the suit, for Mooljee stated that he was possessed of ample means to discharge the Bank's claim. But although the ostensible object of the suit was to get a decree against Mooljee, its primary purpose was to rehabilitate Mooljee himself by quashing the whole of the proceedings taken under Act 28 of 1865, and getting rid of the conveyances made by him to third parties. The suit was therefore dismissed with costs. The Chief Justice remarked yesterday that the agent of the Bank had no right to effect a compromise with Mooljee who had gone under Act 28 of 1865; that it was a fraud on the Act; and that the Bank had no equity to come in and ask the court to set anything right. There was nothing to show sanction of Mooljee's trustee, and the suit was unsustainable without the trustee being made a party. Mr. Starling, who appeared for the Bank, applied for leave to withdraw, with liberty to file a fresh suit on the same cause of action; but the Appeal Court were not disposed to do anything for him, and upheld the decree of the lower court.

THE *Englishman* believes that the hearing of the action for libel by Mr. R. K. Maitland against Lord W. Beresford has been postponed to the 22nd instant.

THE *Pioneer* says that rumour has it that Mr. Halsey goes on three months' leave, and returns only to resign the service, owing to failing health. Mr. Batten will not, probably, revert to the Inland Commissionership; and on *dit* that a North Western Provinces civilian is the coming man for the vacancy.

A CORRESPONDENT writing from Khandala, under date June 10th, says—"I do pity the poor unfortunate children who have been dragged down to Bombay out of this charming weather. I see by yesterday's *Gazette* that the weather in Bombay is worse this week than it was last. It seems wicked indeed to have either teachers or children at school during such heat. Why is not this absurd rule of holiday time changed?"

THE following valediction to the departing Viceroy is from the *Bombay Samachar*:—India at this moment is like a shattered bark that has passed through a severe gale. Her peoples had evinced intense enthusiasm when they welcomed Lord Lytton as the coming Viceroy, and built on him many hopes; that these hopes have been utterly frustrated will be shown by the disappointed countenances which will meet His Lordship on his departing tour. Lord Lytton is not quite a hard hearted man, but in trying to be servile to his superiors he has had to be unamenable to the dictates of reason. He has on the whole nipped in the bud his rising fame as a statesman not only in India, but in England; but if this failure of a once promising career should produce in his successors an anxiety to be prudent and watchful as regards the interests committed to their care, even such failure will have its use.

ON Tuesday last the Commander-in-Chief, accompanied by his staff, was present at the inspection of the 4th K. O. Regiment at Poona by Brigadier General Brice, commanding the Poona division. His Excellency was first met by the divisional staff at the Ghorpuri barracks where, after riding through the lines of the two mountain batteries lately raised, His Excellency proceeded to the parade ground opposite the Wanowrie barracks. Here the 4th King's Own Regiment was drawn up in line, and after the usual "general salute" the inspection was proceeded with by General Brice. At the conclusion of the parade His Excellency proceeded to the head of the regiment, and turning to the inspecting officer, stated he had taken this early opportunity of seeing the regiment after its return from service, and begged he might be allowed to express his extreme satisfaction at the appearance and steadiness of the regiment which he had the pleasure of seeing inspected.

ONE cannot but notice and commend, observes the *Army and Navy Gazette*, the action of the Cavalry during the campaigns in Afghanistan. There is the brilliant charge of Major Stewart, with his little detachment of the 5th Punjaub Cavalry, in the Khost Valley; another not less dashing on the part of Captains Shepperd and Gowan, with the 4th Punjab Cavalry, on the Mahsud Waziris, near Tank; the smart cavalry affair near Kandahar, under Colonel Kennedy, with the 2nd Punjab Cavalry, the only brush with the enemy which that portion of our invading armies met with; the engagement of Guides Corps in which poor Wygram Battye lost his life, and the ill-fated Lieutenant Hamilton earned the Victoria Cross, and last, but not least, the affair of the 9th Lancers before Kabul, in which six officers and nearly a hundred men were placed *hors de combat*. We do not see that anything has been done for the officers named in the despatches.

THE *Army and Navy Gazette* says that a subsidiary portion of the Kabul force, and one which could not be dispensed with under the conditions of Indian warfare, has, strange to say, received no mention hitherto. We refer to the Kahars forming the ambulance corps. There are 900 of these men with General Roberts, and to them has been entrusted the duty of carrying off the wounded in action, and conveying the sick in dandies and doolies on the line of march. They correspond to the bearers of the Army Hospital Corps, but in camp are employed in any rough work which may require to be done. Their behaviour at Charasiab was beyond all praise. They were constantly under fire, and their indifference to danger was very marked, their belief in Kismat supplying the place of steady courage.

THE *Pioneer* states that the official duties of Mr. E. C. Buck, C. S., President of the Melbourne Exhibition Committee, terminated during the past month; but understands that the Government of India has accepted Mr. Buck's offer to visit Melbourne, while on furlough, in the interests of the Indian collection. Mr. O'Conor, Assistant Secretary to the Government of India in the Department of Commerce, who is the only officer officially deputed on pay under the sanction of the Secretary of State to take charge of executive operations at Melbourne, will probably leave Bombay by the direct route early next month. Mr. Buck leaves India at once for Java, reaching Melbourne before the opening of the exhibition. The Commissioner appointed by the Syndicate in Calcutta to represent tea interests is Mr. D. A. Sibthorpe, one-half of his expenses being defrayed by Government, and one half by local subscriptions. Mr. J. Inglis, whose literary talents as "Maori" and the author of a popular sporting book are well known, and who has been appointed one of the Indian Commissioners at Melbourne, has accepted the duty of writing an official report on the Indian exhibits, and the prospects of an extended commerce between this country and the colonies, in both of which he has had much personal experience.

THERE seem to be some very funny people at Lahore, judging from the following story which appears in the *Civil and Military Gazette*:—One of the curiosities of the lower strata of native life is the regular occurrence of a panic on the subject of a mysterious and maligant sahib who seizes people in the dark to extract oil from their heads. A craze of this kind is just now in full fling among the domestic servants of Lahore. A dreadful Englishman lives in a tent somewhere near Shalimar, he is attended by two chaprassees dressed entirely in black. When they see a belated khidmutgar or an early ice cooly they seize him and carry him to their master. Sometimes he is made insensible by drugs, sometimes he is stunned by a blow on the head. Arrived at the tent he is hung up by the heels, and with a big knife at the caste his head, like a mutton chop!"—as an awe-struck khidmutgar remarked. The oil resulting from this fantastic cookery is carefully collected by the English ogre for some dread and unfathomable purpose. This year, this periodic delusion has some circumstantial details which are accepted as quite incontrovertible. A punkah coolie from Mian Mir going to fetch ice was carried off on Friday night: the basket and ice ticket were found on the road. In other years Simla has been the scene of the ogre's exploits. We may smile at the grotesque folly of this strange story, but it is implicitly believed by hundreds of the people. And it may serve to remind us of a fact we are apt to forget,—that the vast and obscure regions of native credulity, its fantastic terrors, and its wild superstitions are at this date no more illuminated by British enlightenment than the gloom of the great main drain of London is dispelled by the dark lantern of the explorer.

THE forthcoming cotton crop in America will be less, it is said, than the crop of last year. The cotton grub has done a great deal of mischief in the plantations.

NUMEROUS applications by Englishmen have been made at the Chinese Embassy in London for leave to serve in the Celestial Army in the event of war between China and Russia. The race of Dugald Dalgetys is not yet extinct.

A GEOGRAPHICAL failure is reported from Africa. M. Paul Soleillet, a well-known French traveller, has just returned to Senegal, after trying unsuccessfully to reach Timbuctoo. He was kindly received, he says, by the Trazas Moors, but soon after he left their territory he was stopped by a large party of other Moors, mounted on camels, and armed with rifles of European pattern. M. Soleillet himself was unarmed, believing this was the best way to travel in Central Africa.

THE *Daily News* correspondent at St. Petersburg learns that Japan is most unlikely to side with China in the event of war with Russia. A telegram received by the *Novoe Vremyia*, from Nagasaki, via Vladivostok, states that the Chinese are negotiating for an alliance with Japan. The latter rejects the overtures. The Japanese Ambassador Janagiisari is leaving for St. Petersburg. It is stated that commercial affairs in Japan are at a low ebb owing to the financial crisis, and the people demand the convocation of Parliament. The Government is suppressing numerous political societies.

IT is said that France is about to lose the institution known as the Grande Chartreuse, owing to the new law against unauthorised religious fraternities. The Grande Chartreuse in our own time is known as one of the few hostelries still extant where the visitor need not pay for bed or board and also for the famous liqueur sold all over the world and manufactured solely by these silent monks. The receipe is concealed under the altar of the chapel, and each successive prior solemnly admitted to the sacred secret. It is said that the institution, which has lasted since the Norman conquest of England, is at last about to be broken up, and that the brotherhood have threatened to remove their monastery and their manufactory to England. France is, of course, anxious to be rid of the various fraternities, "but the Fabrique of the Grande Chartreuse" has peculiar commercial attractions which the Government is now seeking to retain. The country cannot afford to lose a successful sectarian distillery.

"AN obstinate but bloodless duel," we are told, has been fought on the Belgian frontier by Prince de Senta Severina and M. Salvator Caggegi, who had quarrelled in a Parisian café. It was agreed at the outset that the fight should cease at the first blood. The combat commenced with a great display of energy on both sides, and continued until the parties were thoroughly exhausted, when they adjourned for refreshments. Resuming they went on until dinner-time without a scratch. The seconds, possibly, having exhausted their cigar-cases grew restless and suggested that the entertainment had been carried on long enough. A third bout was, however, held with the same result, and a fourth, when nature gave away, and the combatants had to stop, as they were both exhausted, though neither was scratched. The "second then declared the fight at an end, and assured the combatants that they had conducted themselves according to the rules of chivalry; and drew up an official report of the encounter to be sent to the society journals." The whole party then went off to drink thoroughly satisfied with their day's work.

A RAILWAY TRAVELLER'S COMPLAINT.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I travelled yesterday to Bombay from Poona by the 11-45 a. m. passenger train, and a little before it was started I saw that the third class carriages were choked full with human beings, and for want of more room a number of men were left on the platform to follow, I suppose, in the mixed train. Why a third class carriage or two could not be added before the train left Poona I cannot understand. As we proceeded towards Bombay, I found numerous third class passengers, holding tickets, treated in the same way at several of the stations. When we arrived at Coorla there was another look-out, and a fellow traveller who had just come in told us that this unfairness, if nothing else, to native third class passengers was by no means an uncommon occurrence on the line. The over-crowding seems to take place almost daily.

The matter requires investigation by the agent of the railway company, or failing him, by Government.

Other laxities in the traffic management of this line may be noticed; and it appears to me that the introduction into the department of superior class of native employés is necessary. At present they appear to have been carefully weeded out in favour of inefficient Eurasian lads. S. S. B.

The prisoner stated that he was taking the bread home to his children, and that he did not think he was doing any harm. The magistrate dismissed the case, which, he said, was a frivolous one, and decided that no theft had been committed, the bread having been paid for by the man's master.

The woman was removed at once by the police to the Goculdas Tejpal Hospital where she is said to be still lying in an unconscious state. Upon inquiry it has been ascertained that Gunga was last seen at 9 p. m. on the second floor of Mrs Hamilton's house; she had then been drinking; she was in the habit of going out when Mrs. Hamilton had retired to rest. Mrs. Hamilton had only removed into this house on the day previous, and Gunga appears to have had her bed made on the second floor where she was to have slept for that night. Several of the glass bangles that she had had on her wrists were found lying broken about the place where she was discovered, there were also several sharp stones lying by the side of the gully.

LEAVE GRANTED TO APPEAL AS A PAUPER.—At a sitting of the Appeal Court yesterday before the Chief Justice and Mr. Justice M. Melvill, Mr. Russel, on behalf of Sybill Deborah Hamilton, the plaintiff in a suit against the British India Steam Navigation Company, applied for leave to appeal in *forma pauperis* from the decision of Mr. Justice Bayley. The plaintiff, as widow and administratrix of John William Hamilton, a Eurasian telegraph signaller, claimed in the court below Rs. 20,000 damages for her husband's death occasioned in consequence of injuries received by him while he was a passenger on board the defendants' steamship Madura by the negligence of the defendants' servants. Before the hearing Rs. 8,000 had been offered to the plaintiff, but she would not take less than Rs. 10,000 by way of an amicable settlement. The result of the suit was against her, for Mr. Justice Bayley dismissed the claim ordering her to pay the court fees, from the payment of which she had in the first instance been exempted as a pauper. The appeal was received and allowed to be filed.

AUCTION ON A FORGED BILL OF EXCHANGE.—On Wednesday an action was brought against the Chartered Bank of India, Australia and China by Hypolito Pinto at the Small Cause Court, Bombay, to recover the amount of a second of exchange which the Bank had honoured on presentation under the impression that the endorsement was genuine and not a forgery. It appears the second of exchange had been sent to Goa having been sent from Singapore to the plaintiff's brother in Bombay, and was forwarded by the latter in a letter to the plaintiff at Goa. The letter duly reached Mapuca, a town in Goa, where it was entrusted by the delivery peon to save himself the trouble of attending its delivery to the addressee to a party of the name of Coelho, who lived in the same village as the addressee. Coelho opened the letter, stole the bill which was enclosed, forged the plaintiff's signature, and negotiated the bill at Goa. On presentation by the purchaser at Bombay the bill was paid. In the present state of the Indian statute from which a provision is missing which exists in the English one protecting bankers. Under the above circumstances the defendants were adjudged liable in consequence of their having paid the draft under a forged endorsement, and the verdict was consequently awarded to the plaintiff.

A CURIOUS SALE OF THE AGENTSHIP TO A MILL COMPANY.

THE Chief Justice and Mr. Justice M. Melvill sat yesterday in the Appeal Court to hear an appeal filed by Dulputbhoy Bhugoobhoy and others from a decision given by M. Justice Green in September 1879 in favour of Bomonjee Cursetjee Cama and others for Rs. 50,000, with interest and costs. Mr. Farran and Mr. Lang, instructed by Messrs. Macfarlane and Gilbert appeared for the appellants and defendants; and the Advocate General and Mr. Inverarity, instructed by Messrs. Tyabjee and Sayani, for the plaintiffs and respondents.

The suit in the court below was brought to recover Rs. 50,000, with interest, being money received by the defendants under an agreement of 14th July 1878, in consequence of the agreement not having been carried into effect.

The plaintiffs were Bomonjee Cursetjee Cama, Dhunbaijee, widow of Dhunjeebhoy Nusserwanjee Cama, Haripersad Suntokram, and Shamjee Bulmjee; while the defendants are Premchund Roychund and Dulputbhoy Bhugoobhoy, carrying on business in Bombay under the name of Dalbhoy Dulputbhoy. By an agreement dated 14th July, 1878, the plaintiff Bomonjee agreed to buy from the defendants the commission to be received by them as secretaries, treasurers, and agents of the Albert Mills Company or of a new company to be formed in succession to it; and in part satisfaction of the consideration mentioned in the agreement, paid them four sums of Rs. 1,000, Rs 32,000, Rs. 7,000, and Rs.10,000, making an aggregate amount of Rs. 50,000. The defendants were further to transfer to the plaintiff Bomonjee, or as he should direct, 150 shares in the Albert Mills Company (or a corresponding number of shares in the new company) at Rs 1,200 a share, being Rs. 400 per share more than the market price. The purchase of the shares and the other amount of the purchase money would make an aggregate sum of Rs. 1,80,000. It was provided that, in case the scheme under which the commission was to become payable to defendants as secretaries, treasurers, and agents, should not be carried out, the monies paid by the plaintiff should be repaid by the defendants with interest. As to Rs. 33,000, part of the Rs. 50,000, the plaintiff Bomonjee was agent for the plaintiff Dhunbaijee, and she being indebted to the last two plaintiffs, had assigned to them this sum of Rs. 33,000 as security for their claim. The scheme by which the defendants were to become entitled to the commission above referred to, was not carried out; and the Albert Mills Company and a company called the Albert Manufacturing Company—which was formed with a view to carry out the agreement in question—went into liquidation. Under these circumstances, the plaintiffs had claimed the Rs. 50,000 and interest from the defendants, but the latter refused to repay the amount.

The defendants' case was this. By the agreement it was provided that the plaintiff Bomonjee should within a month pay to them Rs. 40,000, and within two months from the same date Rs. 50,000 more, and pay to them a further sum of Rs. 35,000; and that when these sums had been paid, the defendants should perform their part of the agreement. The payment of the Rs. 50,000 was admitted, but the defendants submitted that until the balance was paid the plaintiff Bomonjee could not call upon them to perform their part of the agreement. They were ready and willing to carry out the agreement in its entirety upon being paid the balance and the remaining sums payable to them under the terms of the agreement; but they said that the plaintiff Bomonjee was not able or willing to perform his part of it. Mr. Justice Green remarked in giving judgment that, on the one side, the defendants were to transfer 150 shares and procure the fixed appointment of the first plaintiff as secretary, treasurer, and agent of the new company; and that, on the other side, the plaintiff was to pay Rs. 1,80,000. But it was not merely an agreement for the transfer of so many shares at a certain price. The transfer of the office of secretary, treasurer, and agent was an essential part of the agreement, as that office, with its anticipated profit, was evidently the consideration for the first plaintiff agreeing to pay between Rs. 50,000 and Rs. 60,000 more for the 150 shares than they were worth at the time. The only object of the proposed reconstitution of the company being to secure to the defendants the office of secretaries, treasurers, and agents of the company for 25 years, instead of being defendant on the will of the shareholders, and so enable the defendants to assign such office, it was not to be surprised at that it met with opposition on the part of the shareholders. The defendants' power of assigning the office was called in question in a suit brought by some shareholders in the High Court; and that was the true reason that no further steps were taken to carry out and enforce the agreement of 14th July 1878. His Lordship was of opinion that, though the institution of the suit might not of itself have rendered impossible the carrying out of the agreement by the defendants, yet that the winding up did so, and that under the terms of the agreement the case had, at the time of the suit, arisen in which the plaintiff Bomonjee, and so all the plaintiffs were entitled to recover from the defendants the sum paid in pursuance of the agreement. His Lordship thought that it of the agreement would not have been beneficial to the defendants to would not have been beneficial to the defendants to have taken the company out of liquidation and to have carried out the agreement; for the doing so would have involved the expenditure by the defendants of a large sum of money to no beneficial purpose whatever.

At the Appeal Court, Mr. Farran stated the appellants' case, but had not gone far when the learned Chief Justice remarked that the petition to a of the petition to wind up the company amounted to a rescision of the agreement. It was an act inconsistent with the agreement under which the defendants were bound to assign over the agents' commission; and in they did it with Rs. 50,000 of the plaintiffs' money in their pocket. The plaintiffs were justified in considering the defendants' acts as an abandonment of the agreement. Their Lordships therefore affirmed Mr. Justice Green's decree with costs; and discharged the rule staying execution of the decree with costs.

THE COST OF WAR.

"Give me the money that has been spent in war, and I will purchase every foot of land upon the globe; I will clothe every man, woman and child in an attire of which kings and queens would be proud; I will build a school-house on every hill-side and in every valley over the whole earth; I will build an academy in every town, and endow it a college in every state, and will fill it with able professors; I will erect over every hill with a place of worship consecrated to the promulgation of the Gospel of peace; I will support in every pulpit an able teacher of righteousness, so that on every Sabbath morning the chime on one hill should answer to the chime on another round the earth's wide circumference, and the voice of prayer and the song of praise should ascend like a universal holocaust to heaven."—RICHARD C.

WHAT CAN BE MORE TERRIBLE THAN WAR!

"I will tell you what is ten times, and ten thousand times, more terrible than war—Outraged Nature. She kills, and kills, and is never tired of killing till she has taught man the terrible lesson he is so slow to learn; that Nature is only conquered by obeying her. . . . Man has his courtesies of War; he spares the woman and the child. But Nature is fierce when she is offended, as she is boisterous and kind when she is obeyed. She spares neither woman nor child. She has no pity; for some awful but most good reason, she is not allowed to have any pity. Silently she strikes the sleeping child with as little remorse as she would strike the strong man—with the musket or the pick-axe in his hand. Ah! would to God that some man had the pictorial eloquence to put before the mothers of England the mass of preventable suffering, the mass of preventable agony of mind and body which exists in England year after year."—KINGSLEY.

HOW MUCH LONGER MUST THE
CAUSES OF THIS STARTLING
ARRAY OF PREVENTIBLE DEATHS
CONTINUE UNCHECKED!

FOR the MEANS of PREVENTION and for preserving Health, by natural means, see a large Illustrated Sheet, wrapped with each bottle of ENO'S FRUIT SALT.

HOW to PREVENT DISEASE and PREMATURE DEATH by natural means, use ENO'S "FRUIT SALT."

WHAT EVERY TRAVELLING TRUNK and HOUSEHOLD in the world ought to contain—
A BOTTLE of ENO'S "FRUIT SALT."

Without such a simple precaution the jeopardy of life is immensely increased.

ENO'S FRUIT SALT.

THE NURSERY.

BRAIN FOOD in CHILDHOOD.

SLEEP.

HEALTH in CHILDHOOD.

FRESH AIR, and ENO'S FRUIT SALT

PREPARED FROM SOUND RIPE FRUIT.

IMPORTANT to PARENTS.

SHOULD a parent have nothing to bestow but unwise education, still he will bless his child if he form his body to health, and strength, and teach him to rely on a child but a simple meal by labour at the sweet will of you if you form his constitution. If you neglect activity, whether he earns his daily bread by the plough, anvil, or axe. On the contrary, in the love of his health and strength, and leave him a prejudice will cure you, though a millionaire.

ENO'S FRUIT SALT is an INDISPENSABLE REQUISITE for the PRESERVATION of CHILDREN'S HEALTH.

A SALUTOUS DIET.

ENO'S FRUIT SALT ought to be kept in every nursery, not only effects a gentle LAXATIVE or TONIC it is pleasant to the taste, and much superior to nauseous drugs; it corrects the ill effects of late hours, over-exertion, and is extremely beneficial in any feverishness or heat of the skin. Unlike saline, instead of lowering the system, it invigorates it. FRUIT SALT ought to be kept in every nursery, not only for use as a health-giving, pleasant,

COOLING, REFRESHING, and INVIGORATING BEVERAGES, but also as a corrective and valuable remedial agent. Colds, feverishness, fevers, inflammatory diseases, &c. Many fevers and other inflammatory diseases would be thrown off, or greatly modified, if the FRUIT SALT and a blanket bath were used at the outset.

In disorders of the stomach or of impure blood it is invaluable, for not the least of its recommendations is its resemblance to fruit in the natural way in which it relieves the system of effete matter, which, if retained, poisons the blood. Its advantage over fruit is that it can always be at hand when required: at the same time it is in every respect as harmless as the juices of ripe fruit, from which it has been obtained.

STIMULANTS and inadequate amount of exercise frequently derange the liver. ENO'S FRUIT SALT is peculiarly adapted for any constitutional weakness of the liver. A wineglassful of water, avoided by those who keep and use ENO'S FRUIT SALT.—"All our customers for ENO'S FRUIT SALT would not be without it upon any consideration, they having received so much benefit from it."—WOOD BROTHERS, Chemists, Jersey, 1878

ANY EMERGENCY.

IT ought to be kept in every bedroom, in readiness for any emergency, for under any circumstances its use is beneficial, and never can do harm.

"SUCCESS IN LIFE."—A new invention is brought before the public and consumers, whereby all abominable imitations are immediately introduced by the unscrupulous, who, in copying the original closely enough to deceive the public, and yet not exactly as to infringe upon legal rights, exercise an ingenuity that employed in an original channel could not fail to secure reputation and profit.—*Adams.* CAUTION.—Examine each bottle, and see the capsule is marked "ENO'S FRUIT SALT." Without it you have been imposed on by worthless imitations, sold by all chemists. Price 2s. 9d. and 4s. 6d. Prepared only at ENO'S Fruit Salt Works, Hatcham, London, S.E., by J. C. ENO'S patent.
